### Political Dyspepsia.

We raise our hat to the Norfolk Virginian when it endorses the Richmond Times for saying :

"A debt settlement brings no additional taxes. It re-establishes the reputation of our State, and brings capital here to develop our resources. The policy that organizes a sensation against creditors is the dyspepsia of the old fogyism that cannot digest its responsibilities. Virginia has public one in which any citizen of Vir- tried secession and nullifloation and has zen, and to denounce its authority as corrupt is nonsense."-Index-Appeal

MONEYMANIACS OF NEW YORK.

Peculiar Habits of a Rich Man-Miseries

and Deprivations of Misers. There is a sunken eyed old man whom I meet every night that I stroll up Fifth avenue somewhere between Washington square and Twenty-third street. I must throw of the square, and is the owner of much valuable property. In the early days statesmen in the popular branch of Con- of our acquaintance I used to encounter him gress have caught the idea that there is a strolling in the park munching a French fast. If he eats another meal it is probably of the same order. His dress is that of a provisions relative to the "long and short | vagrant, but his conversation is that of an educated man. He is especially happy in recounting reminiscences of the New York of two generations ago, and has traveled a out vanished landmarks in which I happened giving him car fare after each of these iaunts. He pouched the money and walked

This man is a true miser, but not a beggar. A much more complete specimen is another old fellow whom I got to know while making notes in the Astor library. He carried crusts of bread in his pocket and ate them bit by bit as he huddled over his book all day long. His miserable dress, his haggard face and wasted figure inspired me with pity and I lunching in a convenient beer shop of Bohemian renown, and I once invited him to join me. Thereafter he did it daily without inin conference committee, has been put in vitation. When my work at the library was finished he got to haunting my house. Every evening he would lie in wait for meand levy toll to the sum of a dime for his dinner, as reported some time during the present he said. One night a prominent real estate agent came up as I was making this contribution and greeted my pensioner by name. When he had shuffled off the agent laughed at me for my modest liberality. I learned tired real estate speculator and worth at least half a million in property. He lived, and indeed lives still, in a ballway which he has converted into a sort of bedroom in the basement of one of his own houses. The rest of the basement is let out to a rag and paper man, so that the miser is in congenial quarters.

There are two moneymaniaes that I know habits. I could hardly count those whom I know casually or merely by sight or repute. They come of all grades and walks of life. There are among them men who were originally merchants, lawyers, doctors of medicine and of divinity, mechanics and even common laboring men. The miseries they they endure to save a cent are quite incredible. Each man has his own shifts and de vices, and each his pet mania. One gathers pins as if they were gold, and travels with his shabby breast stuck so full of them that it looks like a pincushion. Another collects advertising dodgers with an avidity that would do honor to bank bills. They seem to be under the pressure of an incessant craze to acquire something or nothing, however worthless it may be, and probably experience as acute a pang at the loss of a pin or a hand bill as they would at that of one of their hoarded dollars.-Alfred Trumble in New

#### Luck of a Musical Genius.

Spencer, the man who wrote the opera-Little Tycoon," is a queer genius. He is a mild sort of religious crank and used to sing in the choir in a country town in New Jer sev. He offered his opera to everybody in America who had ever produced comis opera, but they all refused to touch it until he struck George Bartholemew, of the Temple theatre, Philadelphia, who agreed to put it on the stage. It is said that Spencer almost fainted when Bartholemew told bim The yarn told by the captain of the he would do it, and went around among his friends for days afterward telling of his good luck and always shedding tears during the

One day while he was trying to induce a couple of managers in New York to take hold of his opera, he felt so certain that they would do so that he spent all but 50 cents of the last \$3 he had in the world for a bottle of wine, in the hope that it would help to mellow their hearts and clinch the bargain. When they bad drunk the wine they refused. to accept his opera, and Spencer was in despair. He bought a supper and then walked the streets all night because he did not have enough money left to buy a bed. In speaking of the matter afterward he exclaimed pathetically: "Just think of it! I spent nearly the last cent I had on those fellows. and even then they couldn't produce my opera." As it only cost something like \$15,000 to pulluce it the cruelty of the managers is apparent.-Pioneer Press "List-

The Prevailing Stage Superstitions. It is well known that in no profession are superstitions more prevalent than in the dramatic. They are not at all admitted or less degree. Augustin Daly has recently named his new play "Love in Harness." He tries always to get three names into his titles "for luck," and so his play bills give "A Night Off," "Love on Crutches," "Nancy & Co.," "After Business Hours," etc. Lester Wallack, it is said, has a superstition that death scenes are unlucky, and he will not now permit them on his stage, Gilbert and Sullivan were at one time reported to have a superstitious predilection for pieces that began with P, and even at first gave their "Mikado" the name of "Poohbah, that it might follow the successes of "Pinafore," "Patience," "Pirates of Penzance, 'Princess and Peri" ("Iolanthe") and "Princess Ida." The latest instance of superstition is the refusal of a New York manager to open with his new star, Marguerite Fish, on December 13, because 13 is unlucky. As the 13th comes on a Monday, however, a good many plays must open on that day. -Hartford Times. .

Bootmaking Extraordinary. The celebrated Chicago sausage machine has been eclipsed. In this machine the pig, it will be recollected, is said to enter at one end and on the whisk of a handle to emerge in sausage. The Vienna papers are making merry over a bet made a day or two ago by a celebrated shoemaker in that city. He undertook from a given calf to manufacture a pair of boots within twenty-four hours of the animal's death. The conditions were made and a committee was appointed to see that they were duly carried out. Large stakes were put into the hands of an impartial stakeholder. Early in the morning of the appointed day a calf was killed in the presence of numerous witnesses. The skin was at the tannery at noon; it was properly tanned and turned over to one of the most skillful hands of the spirited shoemaker that very evening, and next morning it reappeared in the shape of a pair of boots, which were won by the man who owned the calf that had carried the skin the day before. -Pall Mall Gazette.

## The Virginia State Debt.

At a meeting of Virginia Bondholders, convened by the Council of Foreign Bondholders, and held on Friday, the 24th of September, 1886, at the Cannon-street Hotel, London, the following resolutions were passed unani-

"That this meeting deplores the long contest into which the bondholders have been forced for the maintenance of their rights, and, while asserting its steadfast determination not to acasserting its steadfast determination not to ac-cept the Riddleberger settlement, which, in view of the admitted ability of Virginia to set-tle with her creditors, and the sacrifices they have already made on her behalf, it considers dishonest and unjust, hereby expresses its willingness to meet the State and entertain a reasonable compromise based upon the pres-cept tyration and the available recommendate. ent taxation and the available revenue, after providing for the Constitutional appropriation for government, schools, and other public ex-

The State had the benefit of the whole of the money she originally borrowed (\$34,000,000). It laid the foundation of her roads, railways, and canals, and has brought millions of dollars canals, and has brought millions of into the country. Had you not constructed these public works with the bondholders' money you would have to be taxed now for

No State which borrowed money ever enjoyed the benefit of its loans more than Virginia has done. [See Senate Document XXIV. Session, 1877-78.]

The present unsettled condition of the debis keeping capital and immigration out of Virtering and as loan as matters so continue your

ginia, and as long as matters so continue you will never develop the splendid resources of the State in the way they deserve. The revenue of Virginia is increasing. The

last assessment shows an increase of \$55,000,000 in taxable values. Your present revenue might be largely increased if the taxes were more carefully collected and the present assessments on property equalized throughout the State.
What might have been difficult to do a few

years ago is easy now, and each year the bur-den will become lighter. When the debt ques-

tion is settled capital and enterprise, which now holds aloof, will flow into the State. now holds aloof, will flow into the State.

The settlement offered by the bondholders proposes that the bonds now in existence bearing tax-receivable coupons should be deposited in some trust company; that new bonds should be issued in their place, bearing no tax-receivable coupons, and at a low rate of interest. When the State pays a half-year's interest on the new bonds, the tax-receivable coupons for that half-year shall be cut off the old bonds by the trust company, cancelled, and delivered to the State. Any increase on the present reve-

the trust company, cancelled, and delivered to the State. Any increase on the present reve-nue will be appropriated by the State, and the bondholders will not have any claim on it. There was a cash balance last July in the Treasury of \$737,000, and the average purchase of Riddleberger 3's by the State has been at the rate of \$600,000 per annum in cash. The State has some millions of dollars of assets which would help her in arranging a settle-ment. ment.

The bondholders are as deeply interested as

The bondholders are as deeply interested as you are in maintaining the credit and prosperity of your State. They ask for a fair hearing and a discussion of the question by business men, and not by politicians, whose interest it is to prevent an understanding being arrived at and an honorable compromise made.

The best way of bringing about this settlement is for taxpayers to tender coupons in payment of their taxes. In view of the conciliatory spirit and liberal offer made by the creditors I venture respectfully to submit to you that it is your moral duty, as well as your legal right and privilege, to tender coupons for taxes now due.
